CAMELLIAS - AZALEAS AND ORNAMENTALS

Native Azalea Trail and Home of Bettie Patricia Camellia Sasanqua

Fort Gaines, Georgia

Listing of the Southeastern species of Azaleas.

Listing as to blooming period.

AZALEA CANESCENS: The early blooming pink, quite a show plant on the Trail.

AZALEA AUSTRINA: Yellow to orange with darker tube, blooming with and after A. canescens, and just ahead of A. alabamense.

AZALEA ALABAMENSE: Beautiful white, not the small stoloniferous type, fragrant foliage and flowers, blooming with A. speciosa.

AZALEA SPECIOSA: A beautiful thing, have only the shades of pink and no reds at this time, not fragrant.

AZALEA CALENDULACEA: The beautiful yellow to orange to flame blooming just after A. speciosa.

AZALEA ATLANTICUM: White to slight pink, stoloniferous.

AZALEA AEMULANS: Patilly stoloniferous, fragrant, of the viscose series.

AZALEA SERRULATA: White, belonging to the viscose series.

AZALEA VISCOSA: White.

AZALEA ARBORESCENS: Fragrant both foliage and flowers.

AZALEA NUDIFLORA: Blooming with the last A. canescens. Pink.

AZALEA PRINNOPHILLA: Nice pink of the A. roseum type fragrant.

AZALEA PRUNIFOLIA: Red to pretty near yellow, not quite. Blooming last.
This plant quite rare, and price \$4.00 and \$5.00 each, 12 to 18 in.

R. MINUS: Pink R. carolinanum Pink. Kalmia latifolia pink.
\$3.00 to \$5.00 each.

Best for all plants of the species to be balled and burlapped.

Price of Bettie Patricia, C. sasanqua, Own Root \$3.00, graft \$7.50 to \$15.00.

Price of Native species Azaleas 12 to 18 in. \$3.00, 18-24 in. \$4.00.
All Nursery grown, for several years.

We have a very fine collection of Camellias but do not get out a listing - On the native azalea Trail is one of the largest collections known - superior strains and variations. No charge to see these plants the big show is latter part of March well up into April. Have some plants blooming as late as November.
